

# Data registratie in Research Information Services (RIS)

Expert Centre Research Data

Radboud University

# Research Information Services (RIS)

- Eén systeem voor onderzoeksregistratie, en uploaden en registreren van publicaties en onderzoeksdata
- Koppelingen tussen gegevens over onderzoek, publicatiegegevens en gegevens over data
- Registratie en uploaden van publicaties en onderzoeksdata door de onderzoeker zelf
- Gebaseerd op Personal Metis
- Inloggen via SURFconext
- Bibliotheek fungeert als helpdesk

# Research Information services (RIS)

## Research Information Services

 **RIS INTERFACE** **RESEARCH DATA MANAGEMENT** **INSTITUTIONAL POLICY**

### Archiving your research data

With the Research Information Services (RIS) interface you can easily upload your dataset to DANS EASY, a national and

### Uploading full text

By uploading full text of your publication, this publication is automatically visible in the Radboud Repository.

### Linking your publication and research data

By using the Research Information Services (RIS) interface your research data and publication are

### Log on to RIS

To upload your research data or publication you can go directly to the Research Information Services

[RIS \(test version\) !\[\]\(5aad5154cab86cea48dd9d10e2d01884\_img.jpg\)](#)

### RIS explained

What are the possibilities of the Research Information Services (RIS) interface?

> About RIS

### Change perspective

Prof. dr. Moniek Buijzen:

### Relevant links

Research data management (RDM) involves more than archiving your data. Below you find links for proper data management.

> Storing data during research

# Dataset kiezen

The screenshot shows a web application interface for selecting a dataset. The browser address bar displays <https://oametisa.uci.ru.nl/metis/>. The page title is "RESEARCH INFORMATION SERVICES". The interface includes a navigation menu with "add" and "overview" buttons, and a search bar. Below the search bar, there is a section for "dataset files" with a "standen kiezen" button and the text "Geen bestand gekozen".

The "Research" section displays a table of research id's:

research id's	RU PTR CH-RCM	Religion and the Crisis of Meaning (RCM)
	RU PTR CW-CCS	Centre for Catholic Studies (CCS)
	RU TH Teule 2	Spirituality

The "Dataset" section displays a table with columns for filename, size, and type:

filename	size	type
----------	------	------

A Windows file explorer window titled "Openen" is overlaid on the web application. The address bar shows the path `U449021 (\ru.nl\dfs\ub-h... \handl`. The file list is as follows:

Naam	Gewijzigd op	Type
apa6_2015_2.pdf	15-10-2015 16:32	Adobe Ac
apa6_2015_2.doc	15-10-2015 16:31	Microsoft
Endnote-instructieadvanced_mb.docx	7-9-2015 10:37	Microsoft
Endnote-instructiebegin_mb.docx	3-9-2015 15:57	Microsoft
EndNote Quick Start guide English Se...	3-9-2015 11:33	Adobe Ac
apa6_2015_1.pdf	27-8-2015 13:41	Adobe Ac
apa6_2015_1.doc	21-8-2015 16:36	Microsoft
apa6_2015.pdf	17-7-2015 9:45	Adobe Ac
apa6_2015.doc	17-7-2015 9:36	Microsoft
apa_libguide_exprt_xml.zip	29-6-2015 9:33	Gecompr
apa_hanging_indents.txt	16-6-2015 16:39	Tekstdoc
Vademecum Rapporteren september ...	8-6-2015 9:50	Adobe Ac
doi.JPG	29-5-2015 13:39	IPFG-afbe

The file explorer window also shows a "Bestandsnaam:" field and a file type dropdown set to "Alle bestanden". Buttons for "Openen" and "Annuleren" are visible at the bottom.

# Access level kiezen

Upload dataset files ✕

Use button below to select multiple files or drag and drop files to this window to upload

Geen bestand gekozen

uploaded files: (1)

filename	size	type	type version ?	access level ?
apa6_2015.doc	125 Kb	application/msword		open access 

# Deposit dataset

The screenshot shows the 'RESEARCH INFORMATION SERVICES' interface. At the top right, the user is identified as 'dr. E'. The main navigation bar includes '+ add' and 'overview'. Below this, a toolbar contains icons for 'info', 'delete', 'previous', 'next', 'copy', 'save', 's.f.x', 'upload full text', and 'deposit dataset'. The 'deposit dataset' button is highlighted. A modal dialog box is open, titled 'Saved', with the following text: 'You just took the first step to depositing your dataset at the DANS EASY archive. Next, the metadata and files will be checked by the Expert Centre Research Data of the University Library. They may contact the person registered as contact in case of questions. Subsequently, the dataset will be submitted to the DANS EASY archive. The person registered as contact will be informed when the dataset is publically available.' The dialog has 'back' and 'ok' buttons at the bottom.

# Controle door bibliotheek

- Bibliotheek krijgt bericht
- Controleert (deel van wat nu DANS doet)
  - Metadata
  - Bestanden, readme.txt, codeboeken (niet inhoud, wel functie)
  - Privacy
  - Access level
  - .....
- En deponeert definitief
- RU is deponeerder. Bibliotheek zit daarachter. Correspondentie via bibliotheek (ook bij restricted access)

## Andere data archieven dan DANS

- Onderzoeker deponeert zelf in data archief
- Onderzoeker registreert de dataset in RIS
- Legt daar de link met de gearchiveerde dataset (DOI, URL)
- Legt daar de links met andere objecten binnen RIS
- Bibliotheek controleert

# Datasets en Radboud Repository en Narcis

- **Huidige situatie:**
  - Datasets worden opgenomen in Repository (relaties zijn duidelijk in presentatie)
  - Zowel publicaties als datasets worden geharvest vanuit de repository voor Narcis
  - Daardoor komen datasets dubbel in Narcis (worden ook geharvest vanuit DANS)
- **Inzet voor toekomst:**
  - Datasets alleen vanuit DANS harvesten, niet vanuit Repository
  - Nu nog niet, omdat RU niet duidelijk is in Narcis als deze weg gekozen wordt
- **Inzet voor nog verdere toekomst:**
  - Harvesten vanuit CRIS
