Dear xxxx,

Thank you for applying for a study programme at Maastricht University School of Business and Economics. It is important for you as well as for us to explore whether your expectations about the study programme match to what the programme can offer you and if it meets your interests and competencies. That is why we set up the SCAP (Study Choice Awareness Programme). The programme consists of four activities:

- A first interview with a staff member.
- A group discussion with other prospective students and a senior student.
- A questionnaire to assess your competencies.
- A final interview with a staff member.

These activities will take place online so you do not need to travel. However, this requires that you have a computer with internet access, a webcam, and a headset. We will send you an invitation to your email-address, either your private address or your university account. Based on this invitation you can register for SCAP. Further information will then be given.

This is a separate letter and a special service for students Fiscal Economics and Econometrics.

**The letter is sent irrespective of selection / acceptance to the Bachelor program. In case you have questions about this, please call Student Service Centre at +31-43-3885388.**

If you have any questions concerning SCAP feel free to contact us.
