

How to start with your edubadges backpack

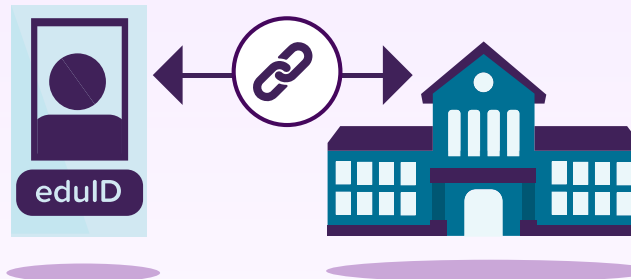

Easily manage your institution's digital certificates with your own edubadges backpack. Follow these three steps to get started.

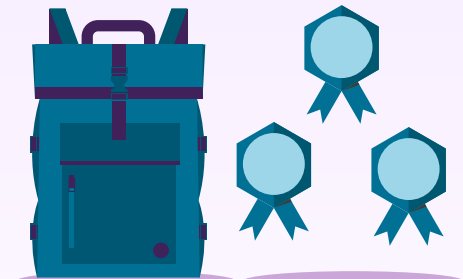

[Go to the instructions →](#)

1. Create an edulD

2. Link with your institution

3. Activate your backpack

Why create an edulD?

You use your edulD to log in to your backpack.

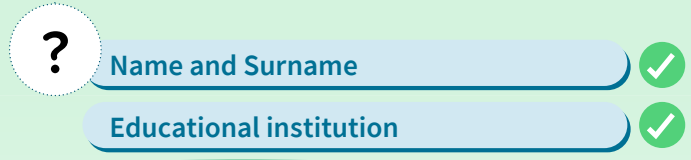

What is an edulD?

It is an identity you can use for educational matters throughout your life.

private@mail.com

Which email address should you use?

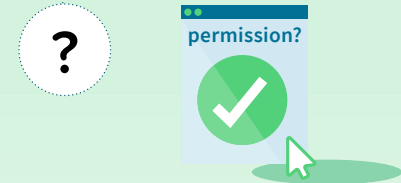

Use your private email address. Then you can still access your edubadges when you are no longer studying.

Why do you link your edulD with your institution?

1. Through the link with your institution, your name is retrieved. This ensures that the edubadge belongs to the right person.

2. Only if you are linked with your institution can the institution put your edubadges in your backpack.

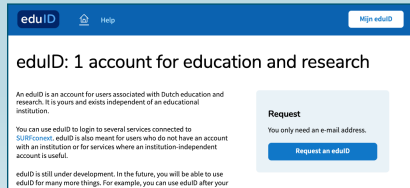

Why does your backpack need to be activated first?

Before you can use your edubadge backpack, you have to agree to share your data and accept the terms and conditions.

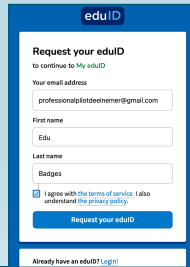

How to proceed (1)

Use 1 device and 1 browser when performing these steps.

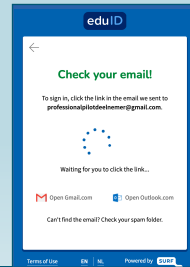

Step 1. create an eduID
