

Datamanagementplannen

Doelstelling

De sub-werkgroep heeft zich ten doel gesteld een inventarisatie te maken van datamanagementplannen in binnen- en buitenland. Er is uitgegaan van templates die openlijk beschikbaar zijn op internet of die bekend waren bij de leden. Naast informatie over de herkomst van de plannen is onder meer genoteerd voor welke discipline en doelgroep ze zijn bedoeld en of ze zijn gemaakt t.b.v. een specifieke financier. Het overzicht is een momentopname en zal worden opengesteld voor aanvullingen door anderen. Hieronder een lijst van de 54 templates uit de inventarisatie, [de uitgebreide inventarisatie is hier te vinden](#).
