

Connecting to the ldap

The ldap server is available at `ldaps://ldap.pilot.scz.lab.surf.nl:636/`

Credentials need to be manually created by the SCZ team. Please contact `bas.zoetekouw@surfnet.nl`.

LDAP schema

We try to include all relevant information from COmanage in the ldap. Therefore, the following schema's are required;

objectClass	Standard	Schema
organizationalPerson	X.521, RFC 4519	standard in openldap
inetOrgPerson	RFC 2798	standard in openldap
posixAccount	RFC 2307	standard in openldap
openssh-lpk	openssh-lpk	schema, LDIF
eduPerson	eduPerson	schema, LDIF
eduMember	eduMember	schema, LDIF
voPerson	voPerson	schema, LDIF
