

Aangesloten diensten bekijken via het SURFconext IdP dashboard

SURFconext is a 'hub' connecting Dutch educational institutions to online services, enabling students, employees etc to sign in to services using their institutional account. To learn more about SURFconext, see [this wiki](#). Below you'll find an introduction to the functions of the SURFconext IdP dashboard .

- Public view, without being authenticated ('logged in')
- 'Logged in' with an institutional account
- Filters
- More help - for power users

Public view, without being authenticated ('logged in')

Without any login needed, it shows what services are technically connected to the SURFconext platform. This means any institution connected to SURFconext can enable access to listed services 'at the flick of a switch'.

The screenshot shows the SURFconext IdP dashboard in its public view. At the top, there is a navigation bar with the SURFconext logo, the text 'IdP dashboard', and language selection buttons for 'EN' and 'NL', along with 'Help' and 'Login' links. Below this is a blue header with the word 'Services'. A welcome message states: 'Welcome to the SURFconext dashboard. On this page you see what services are connected to SURFconext: if your institution allows so, you can access those services using your institutional account. If you sign in to this dashboard (top right), we'll show you data tailored to your institution. More info about this dashboard? Click 'Help' in the top right off the screen.' The main content area features a search bar labeled 'Filter by name' and a table of services. The table has columns for 'Service' and 'License required'. The 'Service' column lists 'Bordeaux University-Moodle Montesquieu', '123Doc Education Limited', and '123University CD'. The 'License required' column shows 'Unknown' for all three. On the left side, there is a 'Filters' sidebar showing 'Showing all 2388 services' and buttons for 'Reset' and 'Export overview'. Below the filters, there is a 'Federation source' section with radio buttons for 'SURFconext (97)', 'eduGAIN (2289)', and 'Entree (?)'.

'Logged in' with an institutional account

People with an account at an institution connected to SURFconext can use the LOGIN button in the top right corner of the dashboard. This will provide:

- Statistics on service usage etc. Your institution can enable or disable you seeing the statistics. So if you don't see them but want to, please check with the IT department of your institution.

The screenshot shows the SURFconext IdP dashboard after a user has logged in. The top navigation bar now includes 'Welcome, John Doe' and a 'Logout' button. The main navigation bar has tabs for 'Statistics', 'Services', and 'My institute', with 'Statistics' selected. The 'Filters' sidebar is updated to show 'Service' set to 'All Services' and 'Period' set to 'Day'. The main content area features a 'Logins per day' bar chart. The chart shows two bars: a blue bar for the first day with a value of approximately 14, and a green bar for the second day with a value of approximately 21. The y-axis is labeled 'Number of log' and ranges from 12 to 22. The x-axis is labeled 'From'.

- Instead of seeing just all services connected to our platform, you will see what services your institution has 'activated' and to what services you can (and can't) login with your institutional account.

The screenshot shows the SURF CONEXT IdP dashboard. At the top, there is a navigation bar with 'SURF CONEXT IdP dashboard', 'SURFnet | Test | Mujina - Production', and user information 'Welcome, John Doe' with language options 'EN' and 'NL', and links for 'Help' and 'Logout'. Below the navigation bar, there are tabs for 'Statistics', 'Services', and 'My institute'. The main content area is divided into a left sidebar with filters and a main table of services.

Filters

Showing all 2389 services

Description

Moodle Platform Montesquieu

Privacy information

The service provider has not delivered any privacy information.

- You get some information specific for your institution. Depending on whether your institution has enabled this, you will also see who manages the SURFconext settings at your institution, and for services your institution provides via SURFconext, you can see who is the contact person for that service.

The screenshot shows the 'Filter services' section of the SURF CONEXT IdP dashboard. At the top, there is a navigation bar with 'SURF CONEXT IdP dashboard', 'SURFnet | Test | Mujina - Production', and user information 'Welcome, John Doe' with language options 'EN' and 'NL', and links for 'Help' and 'Logout'. Below the navigation bar, there are tabs for 'Statistics', 'Services', and 'My institute'. The main content area is divided into a left sidebar with a search box and a main content area with settings.

Filter services

Search services...

This section contains several settings of your institute and the Service Provider(s) provided to SURFconext by your institute. These settings are used in SURFconext, for instance in the Where Are You From page.

Roles

The following roles have been assigned ([more info](#)):

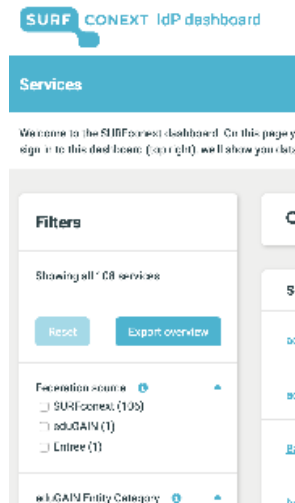

| Role | User(s) |
|-----------------------|---------|
| SURFconext maintainer | |
| SURFconext owner | |

Settings for my own institute

| | |
|-----------|-------------------------|
| Entity ID | http://mock-idp |
| Name (en) | SURFnet Test Mujina |

Filters

Apart from being able to use the search box to find services, on the left of the screen, you're able to filter the list of services:

If relevant, we supply 'tooltips' for a filter: you can hover your mouse over the  to see more more, sometimes with a link to even more info.

One of the filters is about LoA, Level of Assurance. You can read all about LoA on [this wiki](#), but the filters mean:

- "IdP - LoA 2": when you select this, you will see all services for which, on the *IdP* side of the connection, LoA 2 is enforced.
- "IdP - LoA 3": when you select this, you will see all services for which, on the *IdP* side of the connection, LoA 3 is enforced.
- "SP - LoA 2": when you select this, you will see all services for which, on the *SP* side of the connection, LoA 2 is enforced.
- "SP - LoA 3": when you select this, you will see all services for which, on the *SP* side of the connection, LoA 3 is enforced.

More help - for power users

If you've been appointed a 'SURFconext owner' (Dutch: SURFconext verantwoordelijke) or 'SURFconext maintainer' (Dutch: SURFconext beheerder) roll by your institution, you will have more options when logged in. To find out more about those features, see [this wiki](#).
