

# Privacy questions regarding GDPR (AVG)

Commercial Service Providers need to sign the [SURFconext connection agreement](#). Whether or not money is involved is not an issue. We consider a vendor commercial if they are not a SURF member. We want them to fill out some questions regarding the General Data Protection Regulation (GDPR) that are relevant for SURFconext. Answers to these questions we share with the institutions connected to SURFconext in the context of transparency. They then quickly have an idea of the SP's efforts regarding privacy and security. These privacy questions can be answered in the SP dashboard and the answers are thus available to institutions to consider.

Making them available is easy. Login to the SP Dashboard and select the service you need to fill the privacy questions of. Then, do the following.

## Go to the tab 'Privacy'

The screenshot shows the SURFconext SP dashboard. The header includes the SURFconext logo, 'SP dashboard', a user profile for 'Teun Fransen', and links for 'Help' and 'Logout'. A dropdown menu shows 'serviceprovider'. The main navigation bar has 'Service overview', 'Add new service', and 'Translations'. The 'GDPR related questions' section contains an introductory text and three numbered questions, each with a text input field and a help icon. A tooltip for the first question reads: 'Describe what (kind of) data is processed in the service, and pay specific attention to possible processing of personal data.'
