

Login to SP Dashboard

This page will show you how to login to the SP Dashboard and see the entities managed by the teams you are a member of.

 The SP Dashboard is connected to SURFconext. In order to be able to sign in, you either need:

- an account at an institution connected to SURFconext, or
- an account at our [eduID guest IdP](#) . If you don't have one, click [the link](#) to create an account.

Let's login to the SP Dashboard so you can start configuring your entities on SURFconext.

Login to SP Dashboard

First off, let's navigate to <https://sp.surfconext.nl>

Select Identity Provider

You will see our [WAYF](#). Select your the Identity Provider you have used to accept the team invitation that refers to the service you want to add or edit. Search for 'eduID' if you just registered one or the institute you have used for the team.

Login via SURFconext

Selecteer een instelling om in te loggen bij SURFconext SPDashboard

edu

 STC-Group - Edu

 Driestar Educatief

 eduID

eduID

 IHE Delft Institute for Water Education

 Landstede

Stichting Landstede (LandstedeMBO, Menso Alting, Thomas a Kempis, JenaXL, Talentstad, Centre for Sports & Education en Startcollege)

Fill out your credentials

If you have successfully logged with your eduID or Institutional account you will be redirected to the SP Dashboard.

SURFconext Connection Agreement

You will see an overview of the instances that are added by members of that team. There can be multiple and you will also see the instances on production, if any are available.

Next, publish your first [SAML](#) or [OIDC](#) entity on the test environment of SURFconext
