

# purl-rep

The schema's, extensions, descriptions etc are stored in the REP domain.

The REP domain is currently maintained by SURF.

in "/REP/standards/" Partial Redirections are made to this standards wiki.

For example:

<a href="http://purl.org/REP/standards/DAI">http://purl.org/REP/standards/DAI</a>	-->	<a href="http://www.surffoundation.nl/wiki/display/standards/DAI">http://www.surffoundation.nl/wiki/display/standards/DAI</a>	Partial Redirect
<a href="http://purl.org/REP/standards/DAI-extension">http://purl.org/REP/standards/DAI-extension</a>	-->	<a href="http://www.surffoundation.nl/wiki/display/standards/DAI-extension">http://www.surffoundation.nl/wiki/display/standards/DAI-extension</a>	Partial Redirect
<a href="http://purl.org/REP/standards/DAI-extension.xsd">http://purl.org/REP/standards/DAI-extension.xsd</a>	-->	<a href="http://www.surffoundation.nl/wiki/download/attachments/3474049/dai-extension.xsd">http://www.surffoundation.nl/wiki/download/attachments/3474049/dai-extension.xsd</a>	Hard Redirect
